

**8th
Cologne Minisymposium
on Plant Biology
Tuesday – September 23, 2008**

Program

Welcome

- 13.30 – 14.15 **Saul Purton, London**
Nuclear control of organelle gene expression in *Chlamydomonas*
- 14.15 – 15.00 **Wolfgang Löffelhardt, Wien**
The cyanelles of *Cyanophora paradoxa* in the context of plastid evolution
- 15.00 – 15.45 **Sabine Zachgo, Osnabrück**
Shaping the beauty: the making of petals
- 15.45 – 16.15 **Coffee Break**
- 16.15 – 17.00 **Stephan Pollmann, Bochum**
OPDA-mediated stress responses in *Arabidopsis thaliana*
- 17.00 – 17.45 **Dirk Becker, Würzburg**
tba.
- 17.45 - 18.30 **Ian Baldwin, Jena**
Using transgenic native plants to study ecological interactions
- 19.00 **Dinner in “Em Keldenich”**

Guests are welcome!

**Venue:
Main Lecture Hall
of the Department of Biology,
University of Cologne
Gyrhofstr. 15
50931 Cologne**
