

XIIIth
Cologne Minisymposium
on Plant Biology
Tuesday – October 09, 2012

Program

Welcome

- 13.00 – 13.45 **Gabriel Schaaf, ZMBP, University Tübingen**
Regulation of membrane trafficking by Sec14 proteins
- 13.45 – 14.30 **Daniel Schubert, University Düsseldorf**
Epigenetic control of cell fate in plants
- 14.30 – 14.50 **Coffee Break**
- 14.50 – 15.35 **Andreas Meyer, University Bonn**
Glutathione homeostasis and implications for thiol-based redox signalling in plants
- 15.35 – 16.20 **Michael Schroda, TU Kaiserslautern**
The functions of the chloroplast HSP70B chaperone system – new light on an old story
- 16.20 – 16.40 **Coffee Break**
- 16.40 – 17.25 **Cris Kuhlemeier, University Bern (CH)**
The genetics of speciation in Petunia
- 18.00 **Dinner in “Hellers Brauhaus”**
Guests are welcome!

Venue:

**Lecture Hall
Room 0.024
Cologne Biocenter
University of Cologne
Zülpicher Str. 47b
50674 Cologne**

Get-together:

**"Hellers Brauhaus"
Roonstrasse 33
50674 Cologne**
